

Milwaukee 48-40-4520 Features

- Designed to cut a variety of ferrous materials including pipe, angle iron, steel studs and conduit
- Vibration damping which reduces heat, sparks and noise for cleaner smoother, burr free cuts
- Endurance blades offer faster cutting and extra long life for contractors
- Hardened alloy steel body is used to ensure straight, accurate cuts
- Specially engineered heat vents and expansions slots prevent blade distortion and increase blade life
- Good quality blade that contractors can depend on, time and time again

Milwaukee 48-40-4520 Specifications
