

- Hard bond for aggressive cutting on rough applications
- Type 1/Type 41 shape for square, burr-free cutting
- Externally reinforced with fiberglass layers to provide ultimate safety in a thin wheel
- Wide range of sizes available
- Aluminum oxide grain

The A36T is a fast, thin, hard-bond aluminum oxide wheel for aggressive cutting on rough applications. Externally reinforced with fiberglass layers to provide the ultimate safety in a thin wheel. Type 1/Type 41 shape for square, burr-free cutting. Used for stainless steel and ferrous metals such as iron, steel, welds, etc. Package of 100. *Note: 20% restock fee on all SAIT/United Abrasives returns.

Series: Fast Cutting

Application: Metal/Stainless

Arbor: 3/8"

Diameter: 3"

Thickness: .035"

Material: Aluminum Oxide

Type: Type 1

Max RPM: 25,000

Grit: A36T
