

- Silicon carbide grain for long life
- Constructed with the highest quality fiberglass to withstand the toughest applications
- Special grain formula provides excellent cutting action on masonry, concrete, stone and aggregate
- Heavy duty wheels are designed with greater amounts of reinforcement for use on high-speed powered saws
- Type 1/Type 41 shape for square, burr-free cutting

The C24R heavy duty cutting wheel for portable saws is designed with greater amounts of reinforcement for use on high-speed powered saws. Its silicon carbide grain is reinforced with the highest quality fiberglass for a long life and maximum safety and performance. Type 1/Type 41 shape for square, burr-free cutting. Used for stone, brick, soft aggregate, masonry, concrete, and schedule 40 and schedule 80 PVC pipe. Package of 10. *Note: 20% restock fee on all SAIT/United Abrasives returns.

Series: C24R Heavy Duty

Application: Concrete

Diameter: 14"

Thickness: 1/8"

Max RPM: 5,400

Material: Silicon Carbide Grain

Type: Type 1
