## Overview

The Crescent pocket knives have a premium-grade stainless steel drop-point blade; precision-ground for excellent cutting performance, easy maintenance, and overall durability, that makes it the perfect Every Day Carry. Their composite handles are ergonomically designed to optimize hand and finger contact points for enhanced fit and superior control. Precision ball-bearing flipper action provides smooth blade deployment, while a full metal core and liner lock design assures secure locking of the blade in the open position and easy closing. A deep pocket carry clip keeps the knife well concealed, yet always accessible.
