

# M18 FUEL™ SAWZALL® Recip Saw w/ ONE-KEY™ - 2 Battery XC5.0 Kit

4.6 (23) Write a review

Our M18 FUEL™ SAWZALL® Recip Saw is the next generation of legendary performance and durability, designed for the toughest jobsite applications. The M18 FUEL™ SAWZALL® is the fastest cutting reciprocating saw in its class and leverages a POWERSTATE™ Brushless Motor to provide you with 3,000 SPM and a 1-1/4" stroke length for faster material removal. REDLINK™ PLUS electronics ensure maximum performance under stress in addition to protection from overloading, overheating, and over-discharging. The M18™ REDLITHIUM™ XC5.0 Battery Pack delivers you up to 2.5X runtime and provides more work per charge and more work over the life of the pack than competitive batteries. This MILWAUKEE® M18 FUEL™ SAWZALL® is designed to perform in the most demanding applications and is our most durable cordless reciprocating saw yet. A wear-resistant blade change, anti-corrosion blade clamp, and metal reinforced battery rails provide longer component life and stand up to the toughest jobsite conditions. The M18 FUEL™ SAWZALL® Recip Saw weighs less than the previous generation and features an adjustable shoe, integrated LED light, and a hanging hook for convenient storage on the job. Compatible with ONE-KEY™, this reciprocating saw wirelessly connects to a smartphone to customize, track, and manage the tool's performance and location. Tool customization allows you to connect and control settings such as output speed and trigger ramp up for smoother cut starts. A selectable Cut-Brake feature automatically stops the blade from reciprocating at the end of a cut, reducing the risk of damaging sensitive materials near the cut in most applications. The tool's memory supports up to 3 custom profiles that can be easily accessed with the touch of a button on the tool. Integrated tool tracking, also available through ONE-KEY™, provides you with full visibility to how and where tools are being used across your network of jobs and users.
