

TECHNICAL DATA

Specification

Diameter	3/16"
Flute Length	4.0
Length	6.5"
Overall Length	6.5
Quantity	1
Shank Diameter	0.0
Useable Length	4"
Includes	(1) 3/16 In. x 4 In. x 6-1/2 In. SDS-p Hammer Drill Bit

BENEFITS

- Diffusion bonding technology – provides stronger carbide bond for a durable, longest-lasting bit
- 100% full-carbide head – delivers 4X life in concrete with rebar and longer life in all masonry drilling
- Variable flute design – supplies efficient material removal for 25% more holes per charge
- Centric conical tip – results in rounder holes for precision-anchoring applications
- Wear mark – assures hole-diameter tolerance for anchoring
- Widest range – the Bulldog™ Xtreme line offers the widest range of full-head carbide bits
- Optimized for heavy-duty and cordless rotary hammers – fits tools with SDS-plus® chucks
