

- Provides consistent performance with long life
- Versatile diamond (5/8") arbor contains diamond knockout for use on circular saw or worm drive saw
- External fiberglass reinforcement withstands offhand and lateral pressure
- Type 1/Type 41 shape for square, burr-free cutting
- Aluminum oxide grain

The A24R is a general purpose cutting wheel that provides consistent performance with long life. Externally reinforced with fiberglass to withstand offhand and lateral pressure for added safety and controlled performance. The versatile diamond (5/8") arbor contains a diamond knockout for use on circular saw or worm drive saw. Type 1/Type 41 shape for square, burr-free cutting. Used for ferrous metals such as steel, angle iron, rebar, etc. Package of 25. \*Note: 20% restock fee on all SAIT/United Abrasives returns.

**Series:** A24R

**Application:** Metal

**Arbor:** 5/8"- Diamond

**Diameter:** 8"

**Thickness:** 3/32"

**Material:** Aluminum Oxide

**Type:** Type 1

**Max RPM:** 7,600
