

Type 140

- Made of HSS
- 135° split point self-centers and does not walk
- Black oxide finish increases lubricity
- This twin end drill has wide applications in drilling any thin sheet metal or wood
- Automotive body shops will find twin end drills especially productive

Type 140-AG

- Made of special Hi-Molybdenum Tool Steel
- Gold surface treated for maximum lubricity
- 135° split point self-centers and does not walk
- Extra rugged uncleared construction gives superior performance and less breakage
