

SoudaSeal SL (Self Leveling) is a SMX® sealant designed to offer superior adhesion to concrete as well as a wide variety of substrates with a smooth finish, which allows installation without tooling.

Uses

Sealing of joints in building and metal work industry

Advantages

- Excellent adhesion on porous and non porous substrates
- High performance mechanical properties
- Permanent elastic after full cure
- Self leveling
- No bubble formation within sealant even in high temperature and humidity applications
- very easy to tool and finish
- color stable and UV resistant
- ecological advantages - free of isocyanates, solvents, halogens and acids
- minimal health and safety considerations
- can be painted with all water based paints and many other systems (to be tested)
- good extrudability even at low temperatures
- excellent weather resistance in all climates
- primerless adhesion on many different substrates (except where water pressure may occur)
