

## TAK555LF

**TAK555LF** provides the latest technology in comfort and cut resistant gloves. The **Taeki5®** liner is a revolutionary new engineered filament yarn that brings exceptionally high cut resistance along with incredible dexterity and tactile sensitivity. Leather palm with leather wraps around the sides of the fingers increasing protection and comfort, extending glove life and greatly improving launder ability. ANSI level A6 cut resistance make this one of the most abrasion and puncture resistant gloves available. Perfect for handling sharp objects such as sheet metal, glass or razor sharp steel. The **TAK555LF** comes in sizes medium, large and extra large.

### Applications:

Used wherever material handling of sharp objects such as glass, sheet metal or razor sharp steel.

### Qualities:

- ANSI level A6 cut protection
- Leather wraps around the sides of the fingers increasing protection and comfort
